

CONVIVE SANO COMMITTEE

GATHERING COMMITMENT LETTER FOR 7TH to 9TH GRADE

2025-2026 SCHOOL YEAR

The Eton School Mexico ConVive Sano Committee is made up of parents that responsively promote healthy interactions between our children, who as minors deserve a safe, healthy, and happy environment to socialize. Based on national and international studies, we have compiled criteria that safeguard our children when they get together. We hereby commit to upholding those criteria when we organize and attend a gathering.

BY SIGNING THIS LETTER, I COMMIT TO THE FOLLOWING DURING GATHERINGS, WHETHER I AM A HOST OR A PARENT OR LEGAL GUARDIAN OF A GUEST.

1. SUPERVISION. Guarantee there will be a responsible adult (parent, legal guardian or family member who is of age, responsible, trustworthy, and has authority over the children) present during the entirety of the event to supervise the children. This implies, on top of being at the physical location of the gathering, remaining visible precisely to model responsible behavior and doing rounds to make sure everyone at the gathering is healthy and safe.

2. TIME. Set the start and end times of any after-school engagement. We suggest that gatherings don't go past 10:30 p.m. for 7th graders, 11:00 p.m. for 8th graders, and 12:00 a.m. for 9th graders.

3. SAFETY. Know how many people will be at the gathering, their names, and their drop-off and pickup times. Make sure gatherings take place in safe spaces.

4. HEALTHY INTERACTIONS. Promote healthy and age-appropriate activities. Try not to accelerate their participation in activities in which they will be mature enough to partake with time and age.

5. TRANSPORTATION. Pick up minors on time at the venue where the gathering took place. If for whatever reason that's not possible, the child's parent or legal guardian should inform the host ahead of time who will be picking them up. Ideally, one of the parents should do it. If teens will be driving, let the host know so they can make sure they are good to drive. For rideshare apps, we recommend teens share their trip with their parents.

More than 14,000 car accidents are recorded in the country each year.

6. ALCOHOL, TOBACCO AND OTHERS. "Not a single sip for minors" (Ministry of Health). **A child's body and organs have not fully developed, so any foreign or harmful substance can stunt their development or even cause irreparable damage. NO ALCOHOL WILL BE SERVED TO MINORS.**

Smoking and vaping are likewise not allowed.

The hosts are responsible for their own alcohol consumption, in the understanding that they are the adults in charge of the gathering and should set the example.

7. SOCIAL MEDIA. Have a conversation with our children about the proper use of technological devices, chats, and other applicable platforms. Explain the importance of respecting others' privacy and human rights, as well as avoiding inappropriate posts and videos that could physically or emotionally harm any other guest. Uniting as parents and watching out for signs of danger guarantee the safe use of social media and technology.

8. HEALTH. Respect current health protocols at the gathering. If the school puts in place health measures to reduce the spread of illness, hosts should do the same or postpone the gathering until it is safer. Favor open and well-ventilated spaces, the use of hand sanitizer, and any other measures that protect everyone's health.

GATHERING COMMITMENT LETTER

I commit to following these recommendations (click on the link):

[I COMMIT](#)

The ConVive Sano Committee issues these recommendations with the sole purpose of contributing to the parent community's moral commitment, but it cannot be held responsible for any misuse that they could incur.
